

3) Sealing Machines - Horizontal Continuous Sealer

These machines are clever table top models where the products are sealed with the bag lying flat on the conveyor belt.

Technical Specification:

Model	: Continuous Bag Sealer
Sealing Size (in mm)	: W 12
Sealing Length	: 8" 12" 16"
Belt Size	: 15 mm W 750 mm L
Temperature	: 300 Degree
Sealing type	: Checks sealing
Power	: Volt 240 Watt 240
Dimensions (in mm)	: L 810 x W 740 x H 660
Speed	: 12 Meter / Min
Conveyor Loading	: 3kg Max
Weight	: 40 kg.

Useful for: Namkeen, Tobacco, Spices, Detergent Powder, Instant Food, Bakery, Chemicals, Flour Mills, Pharmaceuticals, Dairy Products Etc.

Suitable Material for Sealing: BOPP, Multilayer, Laminated, Polyesterpoly, Alu. Foil, LD, Pp, HD, HM and all type of sealable materials in every thickness.

4) Sealing Machines - Cap Sealing Machine

These machines facilitates the leak proof and pilfer evident sealing of aluminum foils on the cups, cans, bottles, plastic containers, trays, etc. The thermostatic heat controller is provided with Audio-Visual Timer Indicator.

As far as strong cups/ bottles are considered, they can be easily sealed by the Foil Sealing Machines. But if the material of the cups/ bottles/ trays is flimsy or delicate then extra support at the bottom of the neck is required. Or else the cup, etc. may be crushed during sealing operation to provide extra support.

Cap Sealing Machine - PP 150 mm Cap Sealing M/C Screw Type
