

**Shrink Wrap Machine:**

There are different shrink wrap system options that save Money and eliminate unnecessary material choosing, which PACK POINT™ – VIJAY ENGINEERING™ models will be suitable for your products and packaging application. For the special needs you define, we will design a customize machine right for your product.

<b>Shrink Wrapping Machine</b>
<b>Modern Mini (20"x8"x8")</b>
<b>Compact (24"x12"x8")</b>
<b>Genius (26"x12"x12") Reguler</b>
<b>Genius (26"x12"x12") Heavy</b>
<b>Heavy (39"x15"x10")</b>
<b>Heavy (39" x 14" x 14")</b>
<b>Heavy (39" x 20" x 10")</b>

**A) Compact Shrink Wrapping Machines**

**Shrink Tunnel Features :**

- » Fast, smooth operation and easy maintenance.
- » Machine on Castor wheel.
- » Tunnels are designed and built for life and user friendly.
- » Low power consumption.
- » Major Electronics components are ISO / ISI Quality Standard.
- » High-Temperature Silicon sleeves Filled heavy Conveyor.
- » Digital / Deviation Display Thermostatic Heat Control.
- » Fix /Variable Conveyor Speed.
- » Backed-on Powder Coating, All Steel Construction.

**Technical Specification :**

<b>Model</b>	<b>: Compact 100</b>
<b>M/c. Dim. L x W x H (inch)</b>	<b>: 38" x 20" x 20"</b>
<b>Tunnel L x W x H (inch)</b>	<b>: 24" x 12" x 8"</b>
<b>Power Input</b>	<b>: 1 ph/ 3 Ph.+N</b>
<b>Heater Watt</b>	<b>: 3 Kw</b>
<b>Temperature Control</b>	<b>: Digital</b>
<b>Conveyor Speed</b>	<b>: Variable Speed</b>

### B) Heavy Shrink Wrapping Machines

- » Fast, smooth operation and easy maintenance.
- » Machine on Castor wheel.
- » Tunnels are designed and built for life and user friendly.
- » Low power consumption.
- » Major Electronics components are ISO / ISI Quality Standard.
- » High-Temperature Silicon sleeves Filled heavy Conveyor.
- » Digital / Deviation Display Thermostatic Heat Control.
- » Fix / Variable Conveyor Speed.
- » Backed-on Powder Coating, All Steel Constructi on.

#### Applications:

- Food Products
- Electronic Components
- Hardware
- Stationary
- Toys & Games
- Ceramics Etc.

#### Technical Specification:

<b>Model</b>	: PP / Heavey
<b>Chain</b>	: Diamond
<b>Switch</b>	: Salzer (ISI)
<b>Contector</b>	: TC/ L.G.
<b>Temperature.Controller</b>	: Selectron / Multisplan
<b>Motor (D.C.)</b>	: TVS Lucas (for Variable Speed)
<b>Heater</b>	: "U" Type
<b>Body</b>	: MS Powder Coated (two Sides)
<b>Insulation</b>	: Cerawool
<b>Blower Fen (2)</b>	: GE Motor
<b>M/c. Dim. L x W x H (Inch)</b>	: 46" x 20" x 26"
<b>Tunnel L x W x H (inch)</b>	: 39" x 14" x 14"
<b>Power Input</b>	: 1 ph/ 3 Ph.+ N
<b>Heater Watt</b>	: 9 Kw
<b>Temperature Control</b>	: Digital
<b>Conveyor Speed</b>	: Variable Speed / Fix speed

**Wrapping Machine: - Tray Wrap Machine**

This machine is useful for wrapping transparent cellophane type PVC stretch film on open tray & packets.

The machine is equipped with a roller to mount the film Roll.

A cutter, to cut the film to size as per the tray dimensions

A Heater pad, to seal the film under the tray, once it is stretched & wrapped.

This type of transparent packing makes the product look attractive as well as Increases shelf life.

**APPLICATION:**

Sweets, Vegetables, Food stuffs, fruits packing in trays. Also fish, sea-food or any item which needs to be seen through the film wrap to know its freshness.

Machine looks goods on Departmental stores check-out counters, retail shops etc. Where on -the-spot food/fruit packing needs to be done.

**TECHNICAL SPECIFICATION**

- » Full S.S. Body
- » Stretch film Roll maximum width : 450 mm
- » Heating Plate : 400 x 125 mm
- » Power : 230w
- » Source: 220 v / 50 Hz.
